

# Sustainable MPS Adventurous

Portfolio Date: 6/30/2024

## Portfolio Objective & Strategy

The Sustainable Model Portfolio Service (MPS) Adventurous portfolio aims to optimise total returns (capital and income). It uses a wide range of assets, including an allocation to equities typically ranging between 72.5% to 97.5%. It is suitable for investors who wish to invest globally, with a preference to incorporate a focus on environmental and social factors. Arbuthnot Latham manage the portfolio by tactically adjusting the asset allocation in response to the future outlook for markets and opportunities in sustainable investing.

## Asset Allocation\*\*

Portfolio Date: 6/30/2024

## Key Information\*

|                |                |
|----------------|----------------|
| Inception Date | 4/30/2021      |
| Currency       | Pound Sterling |
| 12 Month Yield | 0.6%           |

The model is available on a range of other platforms where performance, charges and underlying holdings may vary. Please refer to your preferred platform for the latest information on charges and total underlying fund costs.

## 12-Month Rolling Performance

|                      |                             |
|----------------------|-----------------------------|
| Period From - To     | Sustainable MPS Adventurous |
| 7/1/2023 - 6/30/2024 | 9.9%                        |

## Performance

Past performance is not a reliable indicator of future results. Performance is shown net of underlying investment costs and does not include any fees paid to Arbuthnot Latham, the professional adviser or platform.

\*The Sustainable MPS was launched on 12 September 2022 and does not have historic performance data. Key information and performance recorded above is based upon Arbuthnot Latham Sustainable Portfolio Service (SPS) since its inception, which maintains the same objectives, risk profile and asset allocation as the Sustainable MPS. Our analysis shows that historic risk and returns of the Sustainable MPS would not have differed meaningfully from the actual risk and returns of the SPS.

Performance data and top-ten holdings from 12 September 2022 will vary depending on the platform service due to the differing availability of investments on different platforms, which may not be represented on this factsheet.

\*\*Asset allocation figures may not always add up to 100% due to rounding.

\*\*\*Other may include investments in commodities, infrastructure and similar specialist alternatives.

## Important Information

We cannot guarantee zero exposure to any particular industry (due to subjectivity and measurement variations). We seek to minimise exposure to industries we believe to be the most harmful and which do not align with our own sustainable values.

The value of investments, and the income from them can fall as well as rise, and may be affected by exchange rate fluctuations. Investors could get back less than they invest. Past performance is not a reliable indicator of future results.

The tax treatment of investments depends upon individual circumstances and may be subject to change.
